Here is what we propose:

1. The conference title: **PPR and GDR in everyday experience. Biography, memory, interpretation.**
2. 27th of March (Thursday) would be devoted to typical conference presentations and we would listen to papers proposed by scholars from the conference call and eventually those whom we would like to invite – together about 12 papers.
3. 28th (Friday) would be devoted to our project – we would present the papers based on drafts of our chapters. We would like to ask for comments of our papers some persons whom we choose.
4. In the evening we would have an open session devoted to our project
